

*A New
Approach
to Sumi-e
Landscape
Painting*

April 14-16, 2023
10:00 am - 3:00 pm each day

A three-day workshop with Frederica Marshall

We will explore the chi of your environment through painting the elements of water, sky, trees, mountains.

This workshop will begin with traditional landscape techniques and special effects. In addition, Frederica has developed new experimental techniques which can be used alone or combined with traditional painting. She will demonstrate opaque, transparent, and translucent effects using ink and color on the front and back of the paper as well as textures created from nontraditional materials and techniques. This is an exciting experience in new ways of painting the world around us. Questions and experiments welcome.

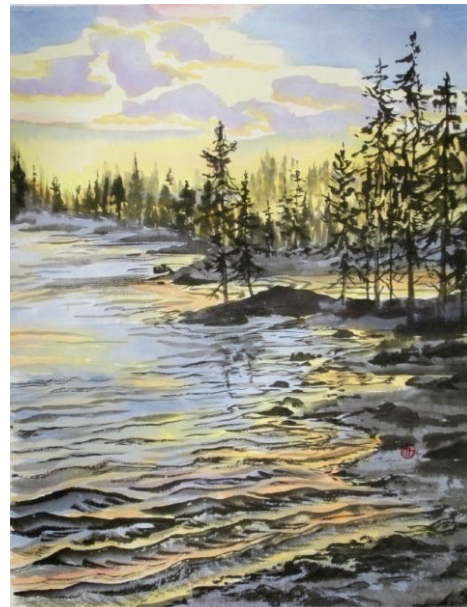

Participants are encouraged to bring their own landscape photos and sketches for reference.
